

Application for admission to the Architecture Program (Bachelor Degree), OTH Regensburg, School of Architecture

Please note: the Architecture program in Regensburg is taught mostly in German. You will need a written and spoken command of the German language for your application process to be successful.

The application period runs from May 1st through June 15th, 2017.

1. Applicants must register at the online-application platform first. Your portfolio must be attached to the online-application as a digital pdf-file, tagged **surname_first name_application number.pdf**.
2. As a second step the application documents (not the portfolio) must be printed and signed and sent by regular mail to the OTH Regensburg.
3. Your portfolio should include 5 examples of work, the total size of file must not exceed 5 MB. What kind of works are we looking for? For example for drawings (black-white and color), paintings, photographic work, images of three dimensional models, and print-outs of computer-generated work.

The portfolio-file must contain your name, address and applicant's number and include the following documents: curriculum vitae / resume (1 A4 page), letter of motivation (1 A4 page), and a written and signed statement, certifying that the submitted samples are exclusively your own work and intellectual property.

The deadline for submitting your application with portfolio is June 15, 2017. Please note that this is the date your application has to be received by the University of Applied Sciences Regensburg. Late submissions will not be considered.

One week before the scheduled entrance exam approved candidates will have received an invitation by e-mail. The exam will take place on Tuesday, July 11 2017, and is only open to approved candidates. Registration will start at 7:30 a.m., the exam itself is scheduled from 9:30 to late afternoon.

What to expect? The exam will consist of three parts: 1. an analytical, technical assignment, 2. an artistic, design-focused assignment and 3. a group assignment and interview. We want to find out about your spatial sense, presentation capacity, technical understanding, your perceptive abilities, creativity and imagination, comprehension, working behavior and motivation.
